

## *Moles University Presents*

# *Green Burial*

**An informational seminar introducing Green Burial as a thoughtful alternative to after death decisions**

Increasingly, the topics of death, dying and grieving are becoming more of the public conversation, and questions regarding the specifics of healing rituals, what decisions need to be made at time of death, and the journey of grief comes into focus.

Moles University is designed to introduce the participant to various topics that directly affect the family in areas related to death, dying and loss due to death. These topics are offered in an informal class setting, usually fifty minutes in duration. Below is a description of our next seminar.
